A HALF-DAY WORKSHOP LED BY LANI MORRIS, BRISBANE, JUNE 2015

## LEARN TO

- Navigate your way to work you love
- Increase your sense of personal power and engagement
- Help create a positive workplace

*"The Map of Meaning is a brilliant addition to my toolkit. Since I was trained, I've used the map nearly every week in some way. If there's one tool people should be trained in, this is it!"*

**Jane Davis, Organisational Development consultant**

This course will give you a simple tool to support and strengthen your personal resilience in the midst of workplace change.

Restructuring, downsizing, merging, new technologies, and growth, all result in change. People can feel dislocated, excited, lost, unable to navigate through the turbulence of change; and this impacts productivity.

The Map of Meaning™ is a simple compass that connects you with what really matters to you, and helps you align this authentically with organisational purpose.

This can help enhance your career prospects, maintain and increase your satisfaction in your work, and positively influence your organisation

## WHO SHOULD ATTEND

This course is designed for people who want to find purpose, resilience and satisfaction in their work, whatever the circumstances.

It is also designed for those committed to creating workplaces that are humane, productive, exciting and successful.

*"The Map of Meaning distills what is otherwise a complex topic into simple, clear, usable information."*

**Drew Pryde, Director, Scottish Institute of Business Leaders**
